

## Aggie Recovery Community Community Member Expectations

Please initial each statement to indicate that you have read and understand the commitments.

\_\_\_ I commit to **Respect** within the CRP community and program by:

- Being mindful, respectful, and accepting of CRC community members. Because the CRC community is comprised of individuals from various walks of life and identify with various communities, respectful language is integral to the community feeling safe and inclusive.
- Treating the Recovery community space as the shared space I have access to by privilege and not right, being mindful of fellow Aggies when entering and leaving the Student Services Building during study hours, cleaning up after myself within the community space, and using the community space to create inclusion and safety for my fellow Aggies in recovery.

\_\_\_ I commit to **Excellence** within the CRP community and program by:

- Take pride in your recovery journey and share your success and experience with others.
- Your recovery is your responsibility. Being engaged in and having a recovery routine is vital to the recovery process.

\_\_\_ I commit to **Leadership** within the CRP community and the program by:

- Recovering by example (Being a role model for incoming community members who are new to the concept of recovery).
- Holding myself and others accountable for inappropriate behavior (destructive and old substance using behaviors).

\_\_\_ I commit to **Loyalty** within the CRP community and program by:

- Being dedicated to your recovery and the success and recovery of your peers.
- When a community member reaches out for support around their recovery, make an effort to be of service.

\_\_\_ I commit to **Integrity** within the CRP community and program by:

- Always being honest about my recovery and holding others accountable for their recovery.
- Following through with your commitments and doing the right thing when no one is watching.

\_\_\_\_ I commit to **Service** within the CRP community and program by:

- Being supportive, empathic, compassionate, understanding, and willing to always be of service to new community members joining the program.
- Newcomers are always the most important people in the room. Their recovery success depends on the willingness of community members to welcome them and make them feel comfortable within the CRP community.
- Being a member of the student organization "Aggie Recovery Community" and engaging in community service projects.

By signing this document, you acknowledge that you have read and understand the program's commitments. Once you sign this document, you agree to the CRP program's expectation and will be asked to act accordingly.
