## STUDENT HEALTH CENTER POLICY REQUIRES:

- T-Spot or Quantiferon Gold Blood testing is required. TB skin testing will not be accepted as tuberculosis screening. .
- Tuberculosis blood testing and chest x-rays (if required) must be done within 12 months prior to the start of the semester the student is choosing to enroll. .
  - Students with a prior BCG immunization still require tuberculosis testing.
  - Students with positive TB blood test results will be evaluated at University Health Services or the local health department.

Detailed information about screening and treatment for tuberculosis can be found at the following website: cdc.gov/tb.

If you are a Texas A&M College Station student, you may be eligible to receive services at the A.P. Beutel Health Center. If you have questions, please visit uhs.tamu.edu or email tbhold@tamu.edu.

Please check which campus you are attending:
